

GRAVEL BLEND

FINE GRAINED MATRIX,
COARSE GRAINED
EASE OF CLEANING.

GRAVEL BLEND

ROUND ROLLED PEBBLES. EXTRUDET CLAY. FOR THE ANTIQUE LOOK WITH FUNCTION.

Gravel Blend's surface finish is modelled on conglomerate rock with a fine-grained matrix and river-pebble inclusions. It is a naturally occurring type of stone that has formed over the course of millions of years since the Alps began to take shape.

Gravel Blend is also created by means of a classic 'baking' process, which makes ceramics very resistant. This is known as 'extrusion' of moist raw clay. Fired using the most modern furnace technology, Gravel Blend combines the primeval appearance of 'conglomerate' with the utility of an easy-maintenance, non-slip outdoor surface. Modern, frost resistant and durable.
